INTERIOR DESIGN

Interior Designers conceptualize and produce aesthetic, functional and safe designs for interior spaces in residential, commercial, cultural, institutional and industrial buildings. Computers are used to aid in drafting, color matching and final product visualization.

This program prepares students to conceptualize and produce aesthetic, functional and safe designs for interior spaces in residential, commercial, cultural, institutional and industrial buildings. Areas of study include interior design and decoration, color, space planning, CAD of interior designs and decorators, textiles and interior materials, furniture and accessories, lighting and commercial and residential perspectives and renders.

Program length: 18 months (includes 8 week internship)

FLEX-ED

The Flex-Ed learning model gives you much more control of your class schedule by leveraging the power of online learning. A tailored online delivery of curriculum allows you to manage your time in school in the way that fits best for your lifestyle. Best of all, you are always supported by an instructor and surrounded by other students like you.
