

ONLINE
PROFESSIONAL
DEVELOPMENT
TRAINING

Kompass offers online professional development training and custom online corporate training in a variety of in-demand areas.

CUSTOMIZED CORPORATE TRAINING

Corporate training doesn't have to be complicated. It's simple to begin – start with these three steps and an admissions advisor can design an online corporate training plan exclusively for your organization.

1. Select a certificate or class that suits your needs, or let us know your learning objectives
2. Choose a learning format (**Instructor Led** or **Instructor Supported**)
3. Register 3 or more participants and receive a **20% discount on tuition**. If you have a larger group we can create a dedicated session exclusively for your participants.

YOUR TRAINING ON YOUR TERMS

Classes start frequently, with opportunities to join on a weekly or monthly basis. Choose from **Instructor Supported** or **Instructor Led** formats and access your course on the go – whenever it's most convenient for you.

Participate in your course based on your availability; days, evening, weekends

24/7 technical support

Industry professional Instructors that bring real-world experience

Access to a variety of student services and support
